

ITFA NERC Winter Seminar & Networking Drinks, London – 1st March 2023

Contributed by the Board of Northern European Regional Committee

It was a pleasure to welcome well over 100 attendees to the recent ITFA NERC Winter Seminar kindly hosted at their premises and co-sponsored by **Allen & Overy**. A busy and mixed programme reflecting the increasingly diverse nature of our membership started with an excellent panel led by Natalia Andrew covering the **Dynamics and Challenges of African Trade**. An **ESG** centric discussion focused on “the what, the why and the how”, this is a fast moving area of the Trade business and one which many members found enlightening. Finally we focused on another driver of change in our business, the **digitisation of a Trade transaction** which featured panellists both in the room and online from Texas – a first for ITFA! See the whole seminar [here](#) and view all photos [here](#).

The seminar was followed by a very well-attended networking drinks reception, once again many thanks to **Allen & Overy**, which gave everyone a chance to interact with speakers and discuss the various points raised during the seminar. Thanks to all who attended.

Don't miss next NERC Event in Amsterdam on the 16th of May that will be dealing with a consequence of last year world events.
