

ITFA Supply Chain Industry Summit, Australia

Contributed by ITFA Australia and New Zealand Regional Committee

On 15 March 2023, The ITFA Australia and New Zealand Regional Committee hosted the inaugural Australia Supply Chain Industry Summit at Macquarie Group's premises in Sydney, Australia. The event gathered industry participants to discuss and debate the state of the burgeoning supply chain finance market in Australia.

The audience had a unique opportunity to hear from distinguished experts in the supply chain finance market - Financial Institutions, Sustainability experts, Fintechs and Economists. There was a lot of honesty about what is needed to replicate success achieved in other markets, but also excitement about the opportunity the market has to transform the financing available to support our customers and communities. To solve the complexities that today's supply chains bring and emerging sustainability goals, all the participants concluded that supply chain finance carries innovative qualities to uniquely meet changing future paradigms.

Damian Kwok, Chairman ITFA Australia and New Zealand Regional Committee commented "On behalf of the Board, I would like to thank our guests, sponsors, and speakers for making the event such a success. As an industry we have come a long way, but we still have so much to do. However, the opportunity to make a difference for our customers and communities is clear, but it will require the collective efforts of the whole community".

The board looks forward to building on the momentum of this event so please stay tuned.

The event was sponsored by ITFA, DBS Group, National Credit Insurance and Macquarie Group.
